SEMI-WEEKLY EDITION.

1 year in advance $3.00
If paid in six months 4.00
If paid in advance 3.00
For three months 2.00
For one month 75
Carriers ..... 12 cts.
Single copies ..... 1 cent

For more copies than one, and for reading matter of the morning, the paper is issued in a smaller sheet.

THE CHICAGO TRI-WEEKLY TRIBUNE is published monday's, Thursday's and Saturday's, in time for the earliest evening mails. It is of the same size with the large Weekly and contains all the reading matter of two days. This is the cheapest edition for residents in the country. It will be furnished to mail subscribers at the low price of $3.00 per in advance.

THE CHICAGO WEEKLY TRIBUNE contains all the valuable reading matter of the Daily, comprising the latest intelligence by Telegraph and the Mails, Market Reports, Literary notices, and choice Story each week, and excellent Home articles, and furnishes more reading than the large sheet of the New York Weekly Tribune. It is published every Friday at the low price of $2.00 a year in advance. Two copies in one address, $3.50. Twenty Copies to one address $25.00.

DR. WILCOX, Dentist,

AND MANUFACTURER OF

CARVED BLOCK TEETH,

No. 30, Dearborn Street, Chicago,

(Opposite the Tremont House.)

DR. BUCK,

HAS OPENED AN ENGRAVING OFFICE at No. 43 Clark street, in the New Block Building, where he will attend to the manufacture of Stencils, Stamps, Seals, Door Plates, Name Plates, Burning Brands, Door Signs, Escutcheons, Rosettes, Bell Pulls, Door Knobs, &c. &c. [jy30]

THE Doctor has connected with his practice, a system of treatment for diseases of the throat and lungs, which will exceed the instructions of medical science. The advantages of this invention are, that it is a local and substantial improvement to the parts affected, giving strength, tightness and elasticity. The Doctor has constructed a set of artificial teeth, on a new principle, which will not decay. Persons can have a perfect set of teeth inserted, which will last for life, and will be found to be more natural, and more durable than any other method of inserting them. Dentists are respectfully solicited to examine the invention. Office No. 4 Gardner's Block, Lake street, Chicago. Dr. Buck is in the very best manner, by practical mechanics, and warranted to be perfect. Repairing and altering promptly attended to. [jy30] JOHN C. GARLAND.

NEW AND VALUABLE DISCOVERY.

Great Improvement in Artificial Teeth.

DR. J. A. KENNICOTT, late of Lake Forest, has invented a new and improved method of inserting ARTIFICIAL TEETH, which is REAL and SUBSTANTIAL IMPROVEMENT in the mechanical department of dentistry, and which will supersede all others. The advantages of this invention are, that it is a perfect fit, and will not change its position in the mouth, and consequently will not decay. It gives strength, lightness and durability. The Doctor has constructed a set of teeth on this principle, which will last for life, and will be found to be more natural, and more durable than any other method of inserting them. Dentists are respectfully solicited to examine the invention. Office No. 4 Gardner's Block, Lake street, Chicago. Dr. Kennicott is in the very best manner, by practical mechanics, and warranted to be perfect. Repairing and altering promptly attended to. [jy30]

SOMETHING NEW.

A VERY great and decided improvement in Artificial Teeth, recently invented by Dr. KENNICOTT'S Office, most cordially be sup. to the public. The advantages of this great points fairly in the mouth, and will not change its position, or decay. They will be found to be more natural, smooth as a natural tooth, and are easily cleaned, there being no crevices to collect food, which causes decay. They are also more durable, and will retain their color for a much longer time than any other teeth. Dr. Kennicott's office is situated in Dr. Taylor's, or Cincinnati's new building, corner of Lake and Dearborn streets. Office—No. 3 Lake Street. [jy30]

DENTISTRY.

DR. H. K. KELSEY, Surgeon Dentist, would return his thanks to the citizens of Chicago and vicinity, for the liberal patronage heretofore bestowed upon him, and would solicit a continuance of the same. He would also call attention to his improved method of inserting Artificial Teeth, which he will warrant to be superior to any other now in use. Office on Lake street, over the Daguerrean gallery of C. C. Gilman. Parlor entrance on Wells street. [jy30]

A. McCLURE, CITY SEXTON AND UNDERTAKER.—The subscriber, for their favors of confidence in the entire establishment of Mr. A. S. RAYNOR, so long and favorably known to the citizens of Chicago, at the old stand formerly occupied by him, No. 16 Lake street, where he is found at all times. Coffins and Burials of every description furnished at the shortest notice, and on reasonable terms. Persons desiring to attend funerals, can call at the Undertaking Rooms, and they will be conducted to the grounds free of charge. Hearses and Carriages furnished at all hours. [jy30]

CARDS.

WM. A. GROVES,

Summary of News.

THE GREAT EVENT IN WASHINGTON ON SUNDAY last seems to have been the marriage of the rich and accomplished widow of Gen. Ashley, of Missouri, to Attorney General Cvttenden. The nuptial ceremonies were attended by the President elect, President Fillmore, many members of the present as well as the prospective cabinets and a great number of other distinguished personages. The Report of the Secretary of the Navy is published in answer to a resolution of the Senate, respecting the establishment of steam communication between the Western coast of the United States and China. Mr. Kennedy urges the necessity of the United States adopting steamships of this character before some other nation shall enter the field and monopolize the profits. Capt. Ericsson's ship is gaining friends every day, and that, instead of going to church several Congressmen went on board and inspected her machinery. It is now thought that the amendment, as well as some others of equal importance, will be adopted by the Senate, and eventually concurred in by the House.

THE PRINTERS OF BALTIMORE HAVING STRUCK FOR 35 cents per 1,000 ems for all newspaper work, the employers at once acceded to the demand. The nonunion strike still continues.

THE SLOO TREATY WITH MEXICO, STIPULATES TO complete a plank road across the Isthmus within three years, and a railroad within four years thereafter.

FROM TEXAS WE ARE SORRY TO LEARN THAT THE Indians continue their depredations with impunity.

RECENT ADVICES FROM HALIFAX, N. S., ANNOUNCE that the railroad bill has been defeated in the Legislature. The New Brunswick Legislature was opened on the 24th, and an address to the Queen, announcing the making of any Treaty for the fishery question in which Nova Scotia shall not be a party, was unanimously adopted. The Governor of New Brunswick, in his address, expresses his conviction that no alliance will be entered into by Her Majesty, concerning the fisheries, which will not give ample satisfaction to the colony over which he presides.

THE OUTRAGE OF STOPPING THE MAIL BAGS WAS perpetrated in by the authorities at Havana—Those of the Black Warrior and Empire City had been taken possession of by the police and examined. The seal of that of the Empire City was broken. The small box was still raging there.

THE CLEVELAND, PAINESVILLE, AND ASHTABULA Railroad Company have increased the stock of the road 45 per cent, which will make the amount issued $1,500,000.

IT IS STATED THAT THE ERIE COMPANY WILL DRAW monthly on London, for five hundred thousand dollars, against their recently negotiated loan.

A GERMAN TRAVELER HAS DISCOVERED AN ARMENIAN Missionary in North Africa, that he had died on the Island of Cyprus, near the Kingdom of Bassora, who are Jews in their religious rites and observances. Nearly every family, he says, have the law of Moses written on parchment.

YOUR PAIR OF LEAD ONE HAVE DISCOVERED in Sinking Valley, Blair Co., Penn., which, it is said, are of the most valuable kind. A New York company have leased 15,000 acres for a term of years, for which they pay the owners $87,50 per ton for all the ore taken out in a crude state.

THE BUFFALO COMMERCIAL SAYS THAT CAPT. James Mathews, late of the steamer Ocean, is likely to receive the appointment of commander of the Queen of the West, vacant by the death of Capt. Stone.

THE SYRACUSE STAR UNDERSTANDS FROM A RELIable source, that the Farmers' Bank Onondaga, will resume payment of its circulating notes this week, at its banking house.

THE EARNINGS OF THE CHAMPLAIN RAILROAD for January, were $28,856—gain over same month last year, 11.22%. The earnings of January, 1852, were $17,578, and of January, 1851, $9,722.

THE FOLLOWING ERRORS IS MADE BY THE RAILroad engineers of the line of telegraph, for the year 1853, between Buffalo, Chicago and Milwaukee, by Mr. Haviland, superintendent:

Am't rec'd for messages	$61,105 29
Paid other lines	18,239 11
" Extended	814 04-14,707 10
Receipts of the line	$46,396 19
Cash on hand Jan 1, 1852	1,295 15
Receipts for January	46,396 19
" from other sources	2,232 75 $50,045 00
The expenses of the line	
for salaries, repair, oil	47,021 00
dividends, &c	
Leaving cash on hand	$3,024 00

The figures show a gratifying increase in the total receipts of $20,331 87, and in the nett receipts of $14,310 04, in favor of the past year. The line is in excellent working order, and no railroad on our line can boast of a more efficient corps of operators.

THE TWO NEW STEAMERS BUILDING AT BUFFALO, for the New York and Erie Railroad, are progressing rapidly. They are splendid boats, it is said, in every respect.

DEATH ARE UP AT DETROIT FOR CLEVELAND.

THE NEW YORK ALDERMEN SEEK TO BE IN A fair way to get their deserts at last. Two of them have been indicted for misdemeanor.—Others have temporarily escaped because witnesses refused to testify before the Grand Jury. One fellow distinctly and unequivocally refused to answer the question, whether he had ever paid, or caused to be paid, money to any member of the Common Council to get his aid in procuring a certain city lease, assigning as a reason that his answer, if given, might tend to criminate himself. The presentation of the Grand Jury shows that these two Aldermen received money for their official influence—the strongest testifying to the most flagrant acts of bribery on their part.

THE ANNUAL AMOUNT OF LEAD PRODUCED FROM the Wisconsin mines is about 140,000,000 lbs., which, at five cents a pound, (a low estimate now,) amounts to $2,000,000.

THE DETROIT FREE PRESS SAYS A LARGE NUMBER of the journeyman carpenters and joiners of that city were on a strike Tuesday, and paraded the streets with a band of music. It is doubted they demand an advance of 25 cents per day on their wages—their present pay be ing $1.25.

A WASHINGTON CORRESPONDENT OF THE DAYTON Gazette says that Secretary Corwin will remove to Louisville, after closing his labors under President Fillmore, and that he will become a permanent resident of Kentucky, his native State.

THE CONSUMPTION OF TOBACCO IN GREAT BRITAIN in 1851, was 15,598,163 pounds, averaging 1½ ounces to each inhabitant; in 1851, the consumption was 24,062,978 pounds, averaging 1½ ounces apiece.

THE BOOKS OF THE BENNINGTON AND RUTLAND Railroad were lately opened in New York, and at the close of the day it was found that 23,200 shares had been taken—one capitalist taking 1,800. The shares are $100 each, and the whole number is 50,000. The Shebeygan Chronicle says that the money necessary to commence with, has been paid in, and operations are to go forward immediately.

THE LOUISVILLE COURIER STATES THAT THERE IS great fatality among the hogs at Milton, Ky., and other points, and that it has been alarmingly destructive to the hogs at Carrollton, at "Bay at Jobe's & Snyder. They have all but one or two days, gruntout, but little abatement of the dis-

Editorial Correspondence of the Daily Tribune.

New York, Feb. 26.

New York City Government—Its Corruption—Fearful Taxation—Effort at Reform, &c.

The Press of New York have been of late revealing astounding facts in regard to the City Government. The *Journal of Commerce* has taken hold of the matter in the most thorough way. The article it has published, proving the great waste of money, corruption, and wholesale bribery, have been collected in a cheap pamphlet of 80 pages, which is circulated extensively. A. C. Flagg, the Comptroller, it would seem, is about the only fixed point in the crowd of officials. His annual report "comes down" on the Common Council in a sledge hammer style. Its power lies not in hard words, but in facts, and its weight in the character of its bold and sterling author. Ten such men would prove the redemption of this Sodomite government. Perhaps even one will prove by its overthrow, the redemption of the city. I have taken time to make up an epitome of the frauds of New York officials, not only as forming an interesting chapter in itself, but as a warning to our citizens to be vigilant, and nip in the bud the first growth of injustice which is seen in the administration of our city affairs.—Any and every mal-administration results directly in the increase of taxes. Who pays these taxes? Not the rich man who owns, but the poor man who hires. Whether he hire a house, room shanty or lot, when the taxes are increased the owner immediately adds the increased tax to his rent. Hence it is necessary that every man should keep a watchful eye on the doings of the Common Council.

There is no doubt but up to this time our own city affairs have been administered with a faithful regard to the interests of the people. All praise is due to our Aldermen, who work hard one evening of every week without pay or pickings. That such a good state of things may continue should be the care of every voter. And that the voter may exercise a due vigilance, it is essential that he be know what the Council do from week to week. To see this idea which induced the editors of the *Tribune* to enter upon the publication of Common Council proceedings, and the first sign of evil in the city government was the unwarranted and gross prevention of this publication. The history of this, the *Tribune* has faithfully published, and so far its duty to the voters of Chicago is accomplished. But their duty remains to be done. They should see to it, that such a daring prohibition do not pass unquestioned.

The friends of the Common Council of New York appear under three forms:

1st, In calling to others their votes and influence, whereby valuable franchises and property have been parted from without adequate consideration. The Governor of New Brunswick, in his address, expresses his conviction that no alliance will be entered into by Her Majesty, concerning the fisheries, which will not give ample satisfaction to the colony over which he presides.

2d, Under the first head we note the sale of the "Gonesvort property" for $160,000, valued at $200,000, the history of which is peculiarly rich but too long to give. 3d, the sale of 120 feet of bulkhead between Bank and Hammond Streets, for $12,000, worth $35,000. This was sold to a Mr. Durfee, who on examination, turns out to be a foreman in ex Mayor Kingsland's oil-works, who is one of the commissioners of the sinking fund. The property was sold to Mr. Cox for $4,085. Mr. Cox for $4,085. The difference of but two hundred dollars only that he was to pay for the bulkhead in front of it. This property when filled, (it is now partly under water) which can be done without cost, will be worth $80,000.

Under the 2d head we note that the places owned by the city, valued by the late Comptroller at $3,238,000, bring an income to the city of only $12,485, or about six per cent on $200,000! The private history of these lettings would reveal an amount of corruption well-nigh incredible except in Rome previous to its "fall."

Under this head we quote the following history from the Journal of Commerce:

"Some years since Mr. Charles F. Grim, then a member of the bar, commenced, on his own behalf, the work of making an index of all deeds relating to city property, with a view to sell the information to purchasers. This work of great consequence to the owners of real estate, as it was calculated to diminish the expense which attended a transfer of property to the owner, but was unsuccessful in desiring that it should be completed. The person then in charge of the Register's office stopped Mr. Grim, after he had collected materials for a single printed volume, on the ground that the work would interfere with his perquisites. A single printed volume alone remains to show the character of the work. It was a work of great labor and industry, remarkable not only for his precision and care, but for the highest integrity, and for many valuable attainments; and it has been ever a subject of regret to the bar that the work was not finished. An index made by such a man would be relied on as accurate, and it would obviate the enormous delays and the vast expense incident to the examination of titles. The accomplishment of the work has ever since been the object of desire, and Mr. Tillou, Recorder of the City, in the month of May, 1852, took the requisite steps in the Board of Supervisors to set the work in motion. He had no sooner opened the eyes of the jobbers in the Board, (they are also aldermen) to the subject, than they offered to purchase it, as they have every other power within their grasp. The Index is must be borne in mind, is only valuable from its entire accuracy; it must not only be correct, but it must be known to be so; it will be worthless paper if insecurate. A lawyer expert in the service of examining titles, and competent to devise the mode of performing such a work with skill and care, would have selected a person like Mr. Grim, (he has now, we think, retired from the profession,) and paid him a salary for his labors. On a change of party he was basely put up and framed. We had the curiosity to ask who had received these large amounts for that service, and learnt that it was Arthur Burnet, stationers, in Wall street.

The contract for making the Index was also made with Arthur & Burnet. What Counsel drew it, we know not; but its features show a most decided willingness to put the city in the power of contractors. It is as disgraceful to the author, whoever he may be, as are the ordinances regulating the labor of the Common Council.

Messrs. Arthur & Burnet agree "to collate and prepare a perfect, true, and correct index of the records in the said Register's office, *after the same are copied from the records*, duly *sworn to the same to the satisfaction of the said Comptroller on County affairs.*" They are to do the work "of the best materials, and *as soon as possible*," and the Corporation is to "pay or advance such sum or sums of money as may be required, not to exceed the amount which may be estimated at date at the time of each payment."

"After the same are copied from the records." At the very outset, there is a claim that the corporation shall make those copies; and we learn that the city is to pay for this, or does pay, in addition to the contract price! "To the satisfaction of the said Committee on County affairs!" Mr. Ward is named with the other two Aldermen as the parties to the contract, but he did not sign. The two others constitute a majority, and do sign. Think of the service likely to be rendered in this delicate matter, by Wesley Smith, a lumber dealer, and Thomas J. Barry, a keeper of a livery stable.

Under the 3d head we note the receipt during one year by Henry E. Davies corporation counsel of $60,000 and upwards, in the shape of fees. Some of them are as follows:

Motion to appoint Commissioner	$75
Advising with Commissioners	100
Preparing papers and appearing	100

Tolerably good pay that for legal work. It is estimated that Davies has received over and above the salary to which he was entitled, *ten hundred thousand dollars*, and this is in the teeth of a resolution passed by the Common Council in 1847, declaring that, "hereafter the Common Council will not sanction or approve of, or allow *any charge for services* rendered by the Counsel to the Corporation over and above the salary of $2,000 per annum, or such other sum as may be fixed by the Common Council."

We give the following additional items of city expense:

Reception of Kossuth, commencing Dec. 18, 1851	$16,088 14
Funeral of Henry Clay	15,841 50
Funeral of Daniel Webster	6,447 33
Consumed in the City Hall by the Aldermen and those invited by them, as sworn to by the head of Bureau	9,672 83
Total	$48,046 81
Add claim unpaid for the Kossuth banquet	3,839 00
Total	$51,885 81

The disbursements for the year ending on the 31st of Dec. last, through the bureau of the City Hall and Park were as follows:

For refreshments examined by the Common Council	$9,079 83
For carriage hire for Com. Council	4,267 00
Total	$13,939 83

There, has also been paid in the Street Department, for Committees on streets, roads, lands and places, wharves, piers and slips, during the year 1852—

For carriage hire	$1,107 00
For refreshments	547 42
Total	$1,654 24

The account for the month of December was stated and verified as follows:

"Corporation of New York to Jas. Taylor, Dr.

"To refreshments furnished Com. Council for month of Dec., 1852, viz:

"Beef, pork, vegetables, bread, butter, tea, coffee, milk, sugar, chickens, oysters, eggs, cake, pepper, mustard, salt, vinegar, and help, $778. 50."

One would think that a body of some 40 men only would need "help" to consume that amount during the official sittings of one month. Thus is it that the expenses of the N. Y. city government during the last year reached the enormous sum of $10,200,750—and the debt of the city was increased to $14,990,856. When will Chicago ever get to be so great and prosperous as this? H. F.

The Sault Ship Canal.

The Canal Commissioners have given notice that sealed proposals for the construction of the Canal around the Falls of St. Mary, will be received until the 1st of April next, and may be addressed to S. Conant, Esq., Detroit. The plan and specifications are at the office of Capt. Canfield, Engineer, Detroit. The Canal is to be constructed agreeably to the act of Congress and the law of Michigan enacted on the subject.—The act of Congress provides that 400 feet in width of land owned by the United States, on the line selected for the Canal, and 750,000 acres besides, shall be appropriated for the work It prescribes that the minimum size of the Canal, should not be less than 100 feet wide, 12 feet in depth, and that the locks should be at least 60 feet wide, and 250 feet in length. The work must be commenced within three years and completed within ten, and the Canal is to be owned by the United States free from tolls. Should the cost be more than the 750,000 acres, there may be tolls charged on vessels passing until the State is remunerated; afterwards the tolls shall be graduated only to raise funds to keep it in repair. We gave a synopsis of the Michigan Canal Law a few days ago. The Detroit Advertiser says:

According to the plan of construction now adopted by the Commissioners, the canal, including the dam at the upper end, will be 3,203 feet in length, or 18 feet less than a mile. The width will be 100 feet, and its depth 12 feet. There will be two locks at the lower end which will have a lift of 21 feet. The difference of level between the head and foot of the rapids is at present about 17 feet, and the lift of the locks is calculated to meet the extreme rise and fall of the water in the lakes. These locks will each be 350 feet long and 70 feet wide. In their style they will be similar to the locks now constructed on the enlarged portion of the New York Erie Canal; only such charges being made as their increased size may require.

The prism of the Canal will be principally through the hard limestone formation, which forms the outside line of the first cutting in Lake Superior, and extends to within 802 feet of the upper line of the second lock, where it takes a southerly direction through the soft sand. It has been ascertained whether it again comes near enough the eastern shore to serve as the foundation of the lower lock structure.

The average depth of the rock cutting will be nine feet and seven tenths. The rock is a red sand stone, in thin layers and open seams, will probably only require a blast to be put in every 50 or 60 cubic yards to the same kind. The whole amount of rock cutting is calculated to be 115,903 cubic yards.

The earth excavation will be 106,003 cubic yards.

The masonry required will be 14,188 cubic yards.

The timber required for the piers, wharf and for the lock foundations, will be 151,710 cubic feet.

The amount of plank required will equal 971,000 feet board measure.

The iron for bolts exclusive of what will be required for the locks and lock gates, will round seven-eighths, and the amount required will reach 15 tons.

It is thought that the grey limestone to be obtained at Drummonds Islands, about forty miles distant from the Sault, at the mouth of St. Mary's River, will be suitable for the construction of the locks. All the timber necessary to be used in the work can be obtained anywhere in the lower peninsula from Mackinac to Saginaw, in abundance.

Extension of Peoria and Oquawka Railroad.

The Peoria Republican says the prospect for obtaining a direct railroad communication with the eastern country, by means of an extension of the Peoria and Oquawka road, is becoming brighter every day. Two places on the proposed route to the Indiana line, Washington and Walnut Grove, have already subscribed the handsome sum of $55,000, and they will continue to add to this amount.

A letter has been received from Colonel Morgan, which is highly encouraging to the friends of the road. He states that if Peoria will subscribe the sum of $100,000 to the stock of the company, the completion of the road from Peoria to Lafayette will be placed beyond a doubt. This is cheering intelligence, and we think the citizens will vote the amount by a large majority. In regard to the road itself, it states that Col. Morgan and Dr. Rouse, the agents, have succeeded in making arrangements for the whole road from Peoria to Burlington. Five thousand tons of iron is to be shipped for the east and west ends of the line immediately.—With the money produced from the sale of the bonds of the company, the construction of the road at an early day is placed beyond a peradventure, and there is no reason why the cars should not be running on the whole route by the first of December next. Four hundred hands are employed on the west end of the line; a large number are also at work between Peoria and Farmington. On the return of Col. Morgan from the east, an additional number of laborers is to be engaged on the several sections, and the whole work completed as soon as possible.

The Rencontre between Mr. Baldoe and Mr. Hubbard.

—Several papers, and ours among them, have committed the error of saying that Governor Briggs was one of these parties, in the late rencontre at the Capitol, whereas it should have read, Hon. Mr. Briggs, of New York. The last accounts of this strange collision, show that Mr. Briggs was the assailant, and had no reasonable provocation. Mr. Hubbard displayed a self-control, which, under such an aggravating insult, requires in a man of spirit, more strength and firmness than to fight any number of duels. "He that ruleth his own spirit is greater than he that taketh a city."

Uncle Tom in Saxony.—

The foreign correspondent of the Newark Daily Advertiser, writing from Dresden, Saxony, January 6th, notes the following incident of deception:

"A few weeks ago, at the Annual Fair in Dresden, one of the greatest curiosities of the day was a negro woman with a large iron ring in her nose, represented as a fugitive from slavery. She was pictured upon the outside of the building, chained by the ring, and a driver, holding a whip in his hand, standing by. The admittance was about five cents United States currency. Thousands flocked to see her, in order to gather from life an idea of American slavery. It was a good speculation for the exhibitor. I understand the above forms a traveling exhibition, making a tour of the whole of Europe."

The schooner Ambassella has been sold at Buffalo, to a party in Chicago, for $5,500.

Canadian Items.

TORONTO AND BARRIE.—Mr. Growski & Co. have reported to the contract for the extension of the Toronto and Guelph Railway to Port Sarnia.

On Monday of last week the thermometer stood 10 deg. below zero at Quebec.

The inhabitants of Picton have raised $1,000 by private subscription for the improvement of their harbor.

A woman of the name of Hogan is reported by the Canada Oak, to have been poisoned in the village of Windsor last week. Suspicion attaches to her husband, who has absconded. The officers of justice are in pursuit of him.

The inhabitants of the city of Hamilton have under consideration the expediency of establishing a College, to be affiliated with the University.

SINGULAR CONDUCT.—Dr. McDougall, of Niagara, it is stated in the Mail, who had just returned from England, made an attempt last week to kill Dr. Campbell by stabbing him with a carving knife. No reason can be assigned for the assault.

Peter Wilson, Gore of London, has been committed to stand his trial for the murder of his infant by blows inflicted on his wife prior to her confinement by which an abortion was produced.

SENSIBLE FOLKS.—The inhabitants of the village of Ingersoll, a small village in the county of Oxford have subscribed $84 for the establishment of a reading room.

The Galt Reporter states that the house of William Mackie' offer of the oldest settlers in Nichol was turned to the ground with all its contents on the morning of Sunday of last week.

The inhabitants of Norwich decided last week by a majority of 47 of the rate payers, to ratify the township by-law to take stock in the Woodstock and Erie Railroad to the amount of $10,000.

A fire is reported by the Galt Reporter to have occurred in the town of Preston, on Thursday last, doing serious damage. It broke out in a cooper's shop, and spread to a tavern on the one hand and a brewery on the other—both of which along with the first mentioned building were consumed.

UNPOPULARITY OF THE EMPRESS.—The Paris correspondent of the N. Y. Commercial Advertiser gives the following evidences of the unpopularity of the new Empress of France:

"Her first appearance in public was after the civil marriage at the Tuileries, at a concert given at the theatre of the palace. She entered with the Emperor, and even by that audience of adherents—Ministers, Senators, Marshals—was received in an unbroken silence. The multitude that thronged the route to and from the Cathedral, made none of the natural demonstrations of respect, attachment or good will. Every indicement used to persuade the National Guard that lined a portion of the way to cheer their young sovereign, was thrown away. I have counted many persons who saw the procession, and they all agree in saying that no cheers were uttered, no handkerchiefs waved, and above all, no hats tossed. In the Cathedral, of course, any such demotion would have been impossible. The most marked instance of indifference was when, after the return of the cortege to the Tuileries, she was led upon the balcony by the Emperor, and presented to the people.—Fully ten minutes elapsed. Crowds were collected under the windows of the palace, and waiting for her appearance. The silence was painful, and I should have been glad to have led a hearty cheer myself to relieve the feeling of that mortifying position. She seemed to shrink back, as if shilled by the coldness of the welcome.—The Emperor was visibly moved, and withdrew her from the balcony. The American who was present, express themselves as pained by it; and wonder that the nation that prides itself in *being la plus polie de la terre*, would ever have committed so silly an act to accumulate their prostrations. The illumination in the evening was meagre."

Fairs or Cutting Jugglers.—

A correspondent of the *Lowell Vox Populi* thus describes one of the performances of the Chinese Jugglers in San Francisco:

"A plank sixteen inches wide and six feet high was placed at the back of the stage, and the jugglers went through their feats of dexterity or twenty feet in front of it. The knives were about seven inch blades, and four inch handles, strong and pointed. After playing with them for a time, tossing and whirling them in the most wonderful manner, he threw them one after another, fastening them firmly in the plank before him. He then drew out, and another Chinaman took his stand before the plank, or rather at the side of it, holding out his arm across the same, and the impaler threw one knife after another below it, as closely to the extreme edge as to prevent the cutting of the careful hand, completely fastening his arm upon the plank. The other arm was then reached across, and the fingers of the left hand were fixed there, one knife standing firmly, and the handles crossing each other. The Chinaman then reached forward his head, and quick as thought two knives were thrown—the one above and the other below the head, seemingly within one quarter of an inch on either side. Such precision and daring was truly exhilarating, and the whole evening's performances elicited the most unbounded applause."

NEW STOCK COMPANY.—Since the discovery of the Australian gold diggings, a passion for joint companies has sprung up in London that threatens to revolutionize the world. Among these just organizing, is one for a tunnel from Liver pool to Eastham, a short tunnel running of 10 M. Eta for a supply of ventilation and warmth.

☞ Mr. Whiton has given $25 to the New Hampshire State Agricultural Society for the best specimen of patching and darning. The premiums upon embroidery and worsted work, and the quality called fourths in Albany, can be readily disposed of at Chicago or St. Louis for second clear.

These general facts, when more widely known, will eventually turn the tide of lumber exportation to the western or St. Louis market. And we perceive that the manufacturers of this and adjoining counties, are disposed no longer to submit to what they term the diction and rapaciousness of eastern speculators, but are awakening to the evident advantage of shipping to the west.

Ancient Mines on Lake Superior.

The Lake Superior region of America is rich, or has been in ancient times, in the precious metals. It is not many years ago since these rich seams of copper were discovered, and with our knowledge of the Indian's character and our entire ignorance of the history of the past, in respect to the inhabitants of northern America, it was supposed that our modern discoveries of these minerals were the first ever made by mortal man. The huge mounds scattered over our country have left traces behind them of a race long since passed away; but in more striking manner have evidences of that race been recently brought to light in the discovery of ancient mines, tools, &c., in the Lake Superior region. In 1845 the first of those old mines was discovered, and in it was found a mass of pure copper weighing six tons, which had been raised by ancient wedges, and rolled along the gallery. These ancient mines extended over a tract of country 100 miles long, running from N. E. to S. W. A great number of ancient tools have been found. They all possess of hard stone, with single and double grooves for the reception of handles, like those now employed by blacksmiths for holding their wedges. The marks of fire extended everywhere, showing that they employed heat in their mining operations—by heating the rock first, then cobing it quickly with water to soften it—the plan for softening copper. When did those ancient miners work these mines, and who were they? Trees of hundreds of years' standing extend their roots on the surface of a rock, which has required ages to accumulate, over some of their deepest works. We have no evidence of whose these mines were, except by the tools which have been left behind them; but on no one these they must have been employed for quite a number of their old excavations have been opened up. Is it possible that they were the forefathers of the present race of Indians?—It is possible; savage man in all countries is a wreck of former civilization. The descendants of the Greeks and Romans are not like their forefathers: we know them to be wrecks of former civilization. Tribes and races, separated from communication and contract with others of their species, soon degenerate, and dwindle into the savage state. It is therefore quite possible that the old copper miners of the Lake Superior region were the forefathers of the present race of Indians.—*Scientific American.*

A STRANGE DUEL.—Two dock hands having got into a quarrel at Cincinnati the other day, a challenge passed to fight with boulders. At it they went, the stones flying with fearful velocity at each other, none happening to hit. A police officer came up and grabbed one of them, named Jas. McCollough; the other sprang into the river, or, out of sight, on the boats. Mac was fined $5 and costs for his share.

☞ Miss Fanny Fern, in the Olive Branch, says the only way for the genteel community to obtain their rights is to parade the "Irish Row" policy—look humble, and be almighty cunning. Just 'cus with submission, and there throw the noose over the will. Appear not to have any choice, and as true as gospel you'll get it. Ask their advice, and they'll be sure and follow yours. Look one way and pull another. Make your mouth water at silk, keep them out of sight, and drive where you like.

☞ The number of bankruptcies gazetted in England, from the year 1842 to the year 1849, both inclusive, shows us a yearly average of 1,293; the greatest number being in 1847, when 1,659 were gazetted. For the year 1850, 1851 and 1852, the average has been 894.

LOCAL MATTERS.

COMMISSION FOR LUNACY.—Application was made by F. H. Bleeker to Judge Dickey, judge of the County Court, to summon a jury, and investigate as to the lunacy of Seth Paine, alleging that he was distracted, insane and lunatic, and unable to manage his affairs; further alledging that Seth Paine was indebted to the amount of two dollars, and petitioning that should the jury decide him to be insane, a conservator might be appointed to take charge of his property.

Mr. Paine was defended by Mr. Tracy; the application was supported by A. Huntington and W. T. Barras. The court opened yesterday morning in the Grand Jury room, before Judge Dickey, and was crowded the whole day. A great number of witnesses were examined on both sides, by which the Court was occupied till near five o'clock in the afternoon. Among the witnesses supposed were the Sheriff and his brother, who testified as to certain violent proceedings on the part of Mr. Paine while in prison; W. B. Horner, Mr. Stewart, Dr. Dyer, Jas. Campbell and Dr. O. S. Jenks, were called to testify as to the late remarkable and supposed insane conduct of Mr. Paine.

In all the evidence that was presented, there was nothing but what has been brought out before the court, and published on former occasions, and related chiefly to the conduct of Mr. Paine while in the bank, and when the people were in Harmony Hall; the object of the applicants being to show that Mr. Paine was so altered in his general demeanor, from his former self, as to constitute him insane. For resisting the application, Mr. Tracy called Mr. D. C. Eddy, Newall Davidson, Dr. Brainard, Mrs. Herrick and John Drysdale. Mrs. Herrick underwent a long cross-examination about the visions and revelations, and caused a good deal of amusement by a description of the appearance of Henry Clay, George Washington, &c. She described Henry Clay as being tall, having long features and *dark hair*. The object of Mr. Tracy was, to show that there had been a combination to crush the bank; that many persons had been interested in its downfall; that there had been a connected series of attacks to accomplish this; and that now their object was to get possession of Paine's property, and prevent him from carrying out his great designs which he contended would injure other banks.

The court adjourned the whole evidence, which was not very conclusive, except as to his religious enthusiasm, Mr. Tracy delivered a long and fervent address to the Jury, in which he pointed out all the circumstances connected with the storming of the bank, the imprisonment of Paine, the closing of the bank, and the many events calculated to excite Mr. Paine—and contended that a more temporary excitement of this nature could not be construed into insanity. After the council for the application had addressed the Jury and read a number of extracts from the Christian Banker, the Jury were, instructed by the court to consider their verdict, seal it up, and present the same at 9 o'clock this morning.

MR. IRA B. EDDY.—This gentleman, we learn, has for some time past absented himself from his family and friends. Until last Monday, when he and Mr. Paine got possession of the bank, he had not been seen by them for a considerable period, and since then his friends have not been able to ascertain any clue to his residence. They believe that he is yet completely under the control of the "medimus," and that they are assisting to keep him from his family. As soon as he can be obtained, he will be conveyed to Utica, and will be accompanied by his wife, who trusts that when once separated from the mediums he will soon be restored.

OPENING OF THE ILLINOIS AND MICHIGAN CANAL.—A telegraph despatch from Mr. Talcott, the Chief Engineer, to John H. Kinzie, Esq., Collector in this city, was received here yesterday, containing the gratifying intelligence that the canal will be opened for use on the 14th inst.

OUR HOTELS.—Probably no city in the Union of our population has better cause for gratulation in her numerous hotels and their management than Chicago. This the landlords themselves have manifested to them daily by the *best of evidences*; and the appreciation of the public, is read by all in looking over their long lists of arrivals; but there are none, perhaps, in this city, who are enjoying such a large share of the favor of the public, or more deserving of it, than mine hosts Messrs. Brown & Tuttle, of the Sherman House—so near us across the way, that our business makes it convenient for us to occasionally partake of the rich and varied fare which we are sure to find on their table, under the supervision of that excellent caterer, Mr. Ballangall

☞ St. Davids Festival.—The Benevolent Society of the Ancient Britons, according to notice, held their first Festival at the American House, on Tuesday evening. Gov. Bebb, the President of the Society, was not present, and the chair was taken by a gentleman whose name we did not catch, who gave a very appropriate address. The toasts and speeches were of a high order. There was no lack of talent, wit and excellent feeling.—Among the speakers were Rev J. M. Davis, Rev. Mr. Burroughs, Mr. Eastman of the *Times*, Mr. Scripps of the *Democratic Press*, Mr. Marshall, President of St. Georges Society, Mr. Anderson, President of St. Andrews Society, Mr. J. R. Thomas, and Rev. M. A. Williams. The occasion was one of much interest.

MEETING OF WAGON MAKERS.—A meeting of those employed in the manufacture of wagons, held a meeting on Monday last at the Chicago House, for taking into consideration the present rates of wages. A committee was appointed to draw up a new list of rates, to which, we understand, most of the manufacturers of the city have acceded.

☞ Mr. Wm. J. White, No. 72 State st., advertises that he gets up and engraves seals, visiters' cards, plates, &c., &c., for the great public. Every day we pass the windows of Mr. White's establishment, where are exhibited specimens of his art, which any one, who is dependent on an appreciating public, need not be ashamed of. In every department of his business he is not excelled by any one in all this region. We cannot see how any one, who has seen his door plates possessing a local habitation, can resist the temptation of getting unto himself a name, and if it never shone before, where it will be made to look pleasant and can be read of all men.

From the Rockford Forum of the 26 inst.

☞ At the special term of the Circuit Court held in this town last week, the Grand Jury found a bill of indictment against Joseph Brandon, whose examination has been before noticed, in the month of June, for the murder of Mr. Hall. The trial, however, was postponed until the April term.

☞ We understand the preliminary arrangements for building the large Flouring Mill in this city by the Water Power Company, have all been concluded. The work is to be commenced immediately. It is to be of stone, four stories high, with four run of stone, and two of them to be in operation as early as the 1st of September next.

☞ The bridges of the G. & C. Railroad at this point, now rests upon both banks of Rock river, though not fully completed. The temporary boats or stagings are all removed, the ice broke up and passed from under it on Monday last, and the splendid structure now stands clear upon its naked piers, affording a beautiful specimen of architectural skill, and an important acquisition to the list of improvements going on in our midst. It is now contemplated that the cars will be able to pass over to the new depot on the west side in the course of three or four weeks.

DAILY TRIBUNE.

E. S. STEWART, Commercial and Local Editor.

CHICAGO, FRIDAY, MARCH 4, 1853.

JOB PRINTING.

We would remind our friends, and the public, that we are ready to do all kinds of JOB PRINTING at a short notice, and on reasonable terms. Our materials are entirely new, and embrace the latest styles of type.

Orders left at the Counting Room, on the ground floor, or at the door to the Post Office, will be promptly attended to.

CHICAGO MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE,
Thursday Evening, March 3—P. M.

The Produce market continues without animation, and we have no change to note in any staple. The only articles in demand are Poultry and Eggs, which are scarce. We note sales and nominal rates as follow:

WHEAT—Sales of ordinary spring to store at the per bushel. A lot of good do to mill at 75c and lot of choice do at 76c. Offer moderately liberal; no sales.

CORN—Sales of 1,000 bushels at 36c per bu.

OATS—Nominally 25c per bu. None arriving.

BARLEY—Wanted, and sales not available per bu.

RYE—Sales of 500 bushels at 40c per bu.

FLOUR—Sales of 200 barrels at $5.50@5.87 per 196 lbs.

BUTTER—Good to fair sells slowly at 10c, and roll 12c.

POULTRY—Sales of 100 dressed chickens firm at 5c per pound. Turkeys sold at 8c per lb.

EGGS—There is more inquiry for Eggs, and small lots of fresh sold at 12c@13c per doz.

In other matters, market unchanged.

NEW YORK MARKET—March 2—6 P. M.

FLOUR—Our market for Western and State flour again opened with a very active demand, and prices have advanced 12c per bbl. Canadian still $5.25@5.50 for common brands. Sales 10,000 bbls, at $5.50@5.75 for State; $5@5.12½ for Ohio; $5.50@5.87 for com to good Ohio. Corn meal steady.

GRAIN—There is a better milling demand for wheat, but no change in prices, and sales are small. Sales 4,000 bushels Genesee at $1.80@1.82; 3,000 good Red at 1.76c Corn in good supply and dull. Sales 20,000 bushels here. Corn in fair demand and prices rather held higher. Sales 10,000 bush at 60@62c for mixed; nominal for white. Rye and barley dull and nominal. Oats in fair demand at 37@38c.

PROVISIONS—There is little doing in pork. Sales Mess at $10.50@10.75 for new; $10.75@11.37½ for do prime. Beef in moderate demand and firm at the decline. Sales 1,000 bbls at $6@6.50 for country prime; $8@8.50 for mess; $12@13 for extra. Lard in fair demand at 9½@9½c for prime. Beef hams $16@16.50. Cut meats plenty at 5@5½c for hams; 3½@4c for shoulders. Bacon in fair demand at 5½@6c for hams; 4c for shoulders. Butter in moderate demand at 9@10c for ordinary to prime Ohio; choice at 12@13c for Ohio, and 14@15c for N. Y. do; nominal.

DIED.

March the 3d, PANSY, youngest daughter of Agnes and Hugh Mc Lagan, aged 3 years and 3 months.

The funeral will take place at their residence No. 2 Lake-st. Omnibus at 10 o'clock. The friends of the family are invited to attend.

M'LANE'S LIVER PILLS, have now become the great Specific for Hepatic or derangement of the Liver, in its most complicated forms. This medicine has done an immense amount of good in curing those fearful diseases so common throughout the United States, and as evidence of its efficacy, we affirm that it is superseding every other remedy. We consider this certain cure for unprecedented success. Orders are coming in from all quarters, and every mail brings something of the following tenor:—

CINCINNATI, Ohio, Jan., 1851.

Messrs. J. Reid & Co.—We are nearly out of M'L ane's Pills. It would be well to keep as supplied, as there is a great demand for them in our place. OGDEN & CLARK.

This valuable medicine may be had at the Drug Stores in Chicago, and at the country Stores. ml

Ayer's Cherry Pectoral.

FOR THE CURE OF

COUGHS, COLDS, HOARSENESS, BRONCHITIS, INFLUENZA, WHOOPING COUGH, ASTHMA AND CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an unbounded popularity, by its exceeding the most sanguine expectations of its friends. Nothing but its intrinsic worth, and the wonderful cures it has effected on thousands of sufferers, could originate and maintain its reputation it justly holds. While inferior remedies have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted in all parts of the country, and produced cures too astonishing to be credited, were not the evidence too well authenticated and too respectable to be ignored.

While it is a friend on the public to pretend that any one medicine will combine cure—still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the palace of the American statesman, to the palaces of European Kings. Throughout the entire country, in every state, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the most remedy extant for diseases of the Lungs, Throat and Chest, and in foreign countries, it is coming to be extensively used by their most enlightened Physicians. In Great Britain, France and Germany, where its merits are known, its sales are unbounded, and unbought perhaps. CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Ahs Houses, Public Institutions, and by hundreds of the first families of the nobility and their attending Physicians can employ for the more dangerous affections of the lungs. Also in milder cases, and for children, where prompt and efficient relief is desired. In fact, some of the most flattering testimonials we receive, have been from persons who have found it efficacious in cases particularly adapted to children.

The CHERRY PECTORAL is not advertised by a Practical Chemist, and every ounce of it under his own eye, with invariably uniform results. It is not a secret compound by any one unskilled, unacquainted with the science, whose ignorance may be relied on as genuine, without adulteration.

We have endeavored for years, to furnish the community with a medicine of such intrinsic superiority and worth, as should commend itself to their confidence—a remedy at once subversive and effectual, which this long experience and many trials have proved to be the best that has been attained in preparing it with chemical accuracy, of uniform strength to suit the Physician a new Agent, on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do. Prepared and sold by

JAMES C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

Sold wholesale and retail, in Chicago, by J. H. REED & CO., and sold by the Druggists generally throughout the surrounding country. ml

NEW YORK ADVERTISEMENTS.

FROM S. M. PETTENGILL & CO.'S ADVERTISING AGENCY,
122 Nassau Street, New York; 10 State, Boston.

Important to Housekeepers.

SOMETHING better & more economical than Soda, Cream Tartar, or any other preparation in existence, for baking. Saleratus, manufactured by Church & Dwight, 70 Cedar street, Mount, Hazard, Price, Grinnell, and Johnson Streets, Jersey City, Dr. Chilton's Saleratus, Dr. Dwight's Saleratus, &c. &c.

This is to say that every Family, Hotel, Boarding House, Eating Saloon, Ship Steamboat, Vessel, Canal Boat, &c., &c., can now obtain at their very doors a better article every single day of their existence.

By using the Saleratus manufactured by the old firm, are—1. It saves the expense of milk, eggs, shortening, spoiled bread, and the time and expense of waiting for dough to rise—water only being necessary.

2. By this it can mix the dough to rise best, or baking immediately bread may be made in a few minutes.

3. A cook may be assured of sweet, light, white, sweet, tender and palatable bread and biscuit, whether the flour be of the best or poorest quality.

4. Bread made by this process is much more nutritious, as it is more digestible, and contains more saccharine, vinous and gluten, than when made with yeast.

5. Bread made by this process is much more healthful, and the same kind of nourishment to the system, that it does when it is fermented bread, prevents the proper action of the liver, while the acids found in bread made with yeast, and which are generated by fermentation, are very apt to produce dyspepsia, which is thoroughly tested, and is universally recommended by the most eminent Physicians of the country.

Sold wholesale and retail by the Drug Stores in Chicago, and at the country Stores.

CHURCH & DWIGHT,
70 Cedar street, New York.

Sold by J. H. REED & CO., Chicago, and by dealers generally throughout the country. m3

MANUFACTORY.
THE SUBSCRIBERS, having erected very extensive Car Shops, are now prepared to manufacture at Michigan City, Ind., and keep constantly on hand for sale or to order, Open
PASSENGER, BAGGAGE, FREIGHT, PLATFORM
AND GRAVEL CARS,
with all other kinds now in use, of the best quality, and in the most approved style.
Being assembled with all the latest improvements, styles, and fixtures, and employing none but the most skilful and experienced Eastern Mechanics, we feel confident of giving entire satisfaction to those who may favor us with their patronage.
Our location is such as will enable us to deliver Cars with despatch to any part of the Western States.
SHERMAN, HASKELL & CO.
Michigan City, Ind., Jan. 1, 1853. jan15-dly

SODA WATER APPARATUS.

CAST STEEL SHOVELS,
OLD COLONY IRON COMPANY,
THESE SHOVELS are of the finest quality and finish, and have already attained a high degree of favor. They have already received a highly favorable reputation. They are made from the best refined cast steel, and the blades are cast in the purchase of all steels materials such as tubular, &c., of the usual pointed shape, and also in the new and fine pattern now of the most approved kind, and the shovels are finished in the most workmanlike manner. They are now ready to receive orders for delivery at short notice, and which will be executed with despatch and fidelity. At the late Fair of the Mechanics Institute the premium was awarded to the Old Colony Iron Company for the best cast steel shovels, and by order of the Committee a medal. Orders may be addressed to the Old Colony Iron Co., Taunton, Mass., or left at the office in Boston.

SNUFF AND TOBACCO.
Peter Lorillard, Manufacturer,
